CADET INSPECTION

Inspection of Royal Canadian Army Cadet Corps in Alberta by Capt. G. H. Ritson-Bennett, District Cadet Officer, will commence on Monday, May 31. He will inspect the Strathmore Public School Cadet Corps on Wednesday, June 9, at 2.00 p.m.

Army Cadet Corps in all sections of the province will be inspected. Cadets in the 39 corps to be inspected will be competing for a total of seven trophies.

FOURTH VICTORY LOAN RESULTS

The Strathmore Unit's objective was \$151,000 or 75% increase over the objective set for the 3rd. Victory Loan of \$86,000.

The total received to date on the Fourth Victory Loan drive is \$185,200, which is about 23% over the objective set. This may still be increased when final returns are received from the west end of the division.

The total taken in during the 2nd. and 3rd. Victory Loans was each case about \$123,000, so that this amount was exceeded in the 4th. Loan by over \$62,000 or an increase of over 50%.

Strathmore and District can again feel very proud indeed of the truly wonderful showing made by them in this past Loan. It has been stated many times that the Strathmore district has never yet failed to rise to the occasion when any worthy cause required their support. This has been demonstrated again in the recent drive and it makes all those who had a share in putting the Loan over the top feel mighty happy over it all. The Canvassers, most of whom were farmers with grain untreshed, and in the middle of seeding this year's crop, excelled themselves in their efforts and it is safe to say that a more loyal and willing lot of workers could not be found anywhere. To all of them and

to those who supported the Loan so magnificently the Committee extend their heartfelt thanks.

The very gratifying number of 1022 applicants bought Bonds, in raising the above handsome amount.

This number of individual purchasers testifies to the general loyalty of the citizens, and very markedly to the thorough coverage of the district made by the canvassers.

This is an excellent record.

It went out of sight
And they found it next day in the spoor

"How did the Smith wedding go off?"
"Fine until the person asked the bride if she'd obey her husband."
"What happened then?"
"She replied: 'Do you think I'm crazy' and the groom, who was in sort of a daze, replied, 'I do'."

Successful Sports Day

The weather man put on his best brand Friday last, the track was in good shape, there was a large attendance, the various events were carried through smoothly, and all went well, save a fairly strong breeze which in late afternoon blew up considerable dust.

Schools competing were—Akenstad, Berta Vale, Cairnhill, Carlsland (3 rooms) and 3rd. grades, Elwood, Fairplay, Hervey, Harwood, Leyden, Namaka, Namaka Farm, Nightingale, Orange Valley, Strathmore (6 rooms), Seaberry, Turner.

SHIELD WINNERS
Junior Shield — Strathmore, with 332 points.

Intermediate Shield — Strathmore, with 192 points.

Senior Shield — Strathmore, with 190 points.

High School Shield — Carlsland, with 238 points.

Rural Shield — Cairnhill, with 103 points.

In the evening a Dance with Bingo and Bridge included, arranged by the Canadian Legion concluded a full day.

The draw for the C. P. R. calf resulted in Joe Nicholls, of Carlsland, having the lucky ticket, with R. E. Gray and George Quirin winning the 2nd. and 3rd. prizes. Proceeds from the Bingo amounted to about \$20 which will be used to purchase cigarettes for the Boys Overseas.

THE OUT-SIDE

The Annual General Field Day will be held at the Lethbridge Experimental Station this year on Saturday, June 19th.

Sunflower Seed Oil—
Oil obtained from the sunflower seed is regarded as one of the finest edible oils. It is expected that about 17½ millions pounds of oil will be produced from sunflowers grown in Western Canada in 1943.

Uses for Linseed Oil—
Processes have been developed whereby linseed oil may replace castor oil in the manufacture of lubricants and brake fluid. It may be used in the textile industry, in the manufacture of insulating composition, and it is the base of many important plastics.

More Barbed Wire is made available
Permission to increase production of barbed wire by about 86,256 reels is announced by H. H. Foreman administrator of steel and non-ferrous metals for the Wartime Prices and Trade Board. The move has been made possible by an increase of available raw materials and should be of great assistance in meeting heavy demand for barbed wire resulting from the increased livestock production in Canada.

May 27th, consumers going to the meat markets will present their ration books, with brown coupons Spare "A" designated for meat. These are double coupons, two No. 1, two No. 2 etc. A set will become good each week.

Coupons which become valid before the 15th of the month will expire at the end of that month; coupons becoming valid after the 15th, will expire at the end of the following month.

No Ration on Hot Dogs—
Hot dogs, delectable tidbits offered at fairs, hikes and picnics aren't on the ration list, coming under the category of cooked sausages or wieners. Other exemptions from meat rationing regulations, effective May 27th, include fish and fowl, bologna, cooked meat loaves, liver, tongue, sweetbread, heart, kidney, tripe, brains and tail.

New Ruling Affects Farm Meat Supply—

Farmers accustomed to having animals killed at an abattoir and taking the meat home for consumption on the farm or for the use of his neighbors may continue to do so, according to a new ruling of the Wartime Prices and Trade Board.

This new ruling permits the holder of a valid slaughtering permit to slaughter livestock for the account of any non-permit holding bona fide farmer who resides on his own farm. The farmer will be required to give the slaughterer an undertaking "that the livestock to be slaughtered is the farmer's own livestock and that the meat obtained from the slaughtering of such livestock will be consumed on the farmer's own farm premises or will be sold to other farmers for consumption on their own farm premises.

Recipe For Whitewash—
Mix the following ingredients dry: one gallon of Hydrated Lime, one cup of flour, one half cup of salt and two cups of powdered alum. Add skim milk to this mixture until a creamy consistency is obtained. Then add clothes-blue until the desired blueness is reached. Then add six spoonfuls of Gillelts Lye or Bluestone. If a larger quantity is required, increase the ingredients proportionately.

THE BOMBER PRESS IN GREAT BRITAIN

By WALTER R. LEGGE

BRITISH INDUSTRIES IN WARTIME

To report on British Industries was not one of the main objects of our trip to Britain, and we did not make the intensive study of them we did of the fighting forces and services. However, we were given an opportunity to visit some plants and to see what British workers are doing to help win the war.

Probably the most interesting of the plants we visited was an immense underground factory which was just going into production. These underground factories are not dug out especially for the purpose. There are many large caverns, some natural and others the result of years of mining, which can easily be converted into good factories.

A large elevator took us ninety feet below the surface of the ground to where this factory is located.

The factory itself covers a vast area and only uses a small part of the cavern. One of our guides told us that he had gone down into the cavern before any work on it had been started and he would have been lost if he had not been with a local guide who knew it well.

The floor has been cemented and the walls and pillars painted a light color. This underground factory is brilliantly illuminated by fluorescent lights. The ventilation is wonderful. Air is taken from above ground, cleaned and heated and distributed by viaducts under the floor, while the used air is carried off at the roof.

An example of modern scientific methods is found in the disposal of sewage. It is pumped to the surface and chemically treated to extract gases which are used to propel the factory service cars.

The factory is surprisingly clean and bright. It is hard to believe that it is ninety feet under the ground.

There is a large restaurant underground as well as another on top of the ground. Each of them is capable of feeding several employees in a scientific and efficient manner.

One of the problems in connection with this factory was the supply of labor. The number of workers at hand was limited. This has been overcome by bringing workers there in large numbers of buses and by building dormitories and houses. The dormitories are made up of single and double rooms, compact, but well furnished and comfortable. The buildings are of stone or brick and appeared to be fireproof and substantial.

The houses, some of which we were shown through, are small, but bright and comfortable, and planned to make the most of every bit of space. They are certainly a big improvement on the average workman's home.

We also visited aircraft factories, aircraft engine factories and other munition factories.

One morning we arrived at one of these factories. The entrance was not very impressive. In fact it looked more like some residential flats than a factory. Yet we spent most of the day going from building to building to see various operations in progress. A fine lunch was served to us in the executive offices. The exact number of employees cannot be given but it was in the tens of thousands.

A very large proportion of the workers are women, many of them doing jobs that it was once thought could only be done by men. Before the war these women were hairdressers, barmaids, waitresses, school teachers, shop assistants, domestics and workers in smaller industrial plants. Others had never worked before.

Some of the machinery in this factory was made in the United States, but much of it bore nameplates of British firms.

The general appearance and opera-

tion of this and other factories is about the same as in similar factories in Canada and the United States. However, closer study shows that operations are probably more broken down and scattered than on this side of the Atlantic. There is a good reason for this. In using so many workers with little experience in their particular work, it was easier to teach them one simple operation than it would have been to teach them to handle a complicated machine which would do several operations at once.

The system is also more flexible. Is some part is knocked out by enemy action or otherwise, the entire production will not be stopped.

These factories are unexcelled for precision of craftsmanship, and their production targets are continually being exceeded. This is going to be a big factor in overcoming the Hun. Latest reports are that the Germans are worried over the superiority of the English in precision and quantity of production.

Most of these employees work fifty-six hours a week. When we had a conference with Britain's Minister of Labour, Mr. Ernest Bevin, he told us that there is no gain in working more than fifty-six hours a week, and that he was trying to get it down to fifty-three or fifty-two hours' week. He added, "We are in the fourth year of the war. Most of the virile people have been taken for the forces. Age groups in industry are higher. Forty-seven is the average age of the Liverpool dockworkers, and in the building trades, the average age is from forty-five to forty-six."

We asked two different Cabinet Ministers if England had reached the saturation point in manpower. One answered that there was no such thing other replied, "We are a long way past as a saturation point in labour, and the saturation point."

We came away from these factories deeply impressed with the fact that the civilian workers are just as hard at work just as serious in their tasks, and just as anxious to do their utmost to hasten victory as the members of the Navy, Army and Air Force.

COMMUNITY SHEEP SHEARING
In view of the shortage of manpower and equipment available for shearing purposes, the Alberta Department of

Agriculture has purchased a number of sheep shearing units. These units will be made available to flock owners to be used on a community basis. Dis-

trict Agriculturists will be made in charge of the Community Shearing and will arrange for the organization of communities.

OTTAWA LETTER

F. W. GERSHAW, M. P.

Mr. Howe announced that the War had reached a stage where certain initial requirements had been met and where different types of War material will be required. Capital requirements in the way of plants, machines, etc., have been met and initial equipment for the troops together with spares have been provided. The programme is being revised as the War has passed from a defensive to an offensive stage. Anti-Air-Craft guns will not be required in such increasing numbers. This change will mean that certain men will be moved to other plants or may be laid off pending plant changes. There is, however, an over all shortage of man power in the War Industries and plants all over Canada are greatly handicapped by losing their best men for Army, Navy and Air Force Services.

The billion dollar Mutual Aid Bill has been passed. It allows the Government to provide Munitions of War, such as foods, vehicles, ships etc., to be used against the common enemy for any Allied Country, up to this amount.

The trade between Canada and the 31 Allied Countries will be much more than this and goods may be exchanged returned or paid for. However, the inability to pay will not be a deciding factor in sending needed supplies. A Committee of five Cabinet Ministers will decide on the need, the use to be made of the supplies and the ability of Canada to provide the goods. All parties in the House supported the measure. In addition to effectively helping the joint war effort. It will make a market for Canadian goods in the future, it is hoped.

Up to March 31st, 1943, Canada has in the overseas Army alone 200,000 men. Seventy thousand have been sent during the past year for unit re-inforcements and 400 women to the

CLUNY

—By A. C.—

The W. I. Bridge Club met at the home of Mrs. F. Norvicki on Thursday last. Three tables played, Mrs. W. Somerville winning high score.

A study group has been organized under the sponsorship of the W. I. for the purpose of studying "Post War Rehabilitation."

They met last Friday at the home of Mrs. Goldsmith, when the discussion was under the chairmanship of our High School Principal, Mr. Betten. A very interesting evening was spent but the attendance was not as large as it should have been. We hope when we next meet on June 4th, at the home of Mrs. F. Fairbourn to see a much larger crowd.

Miss Anne Reilly, who is teaching at Beiseker, spent the week-end at her home.

The Cluny boys of the 22nd, Battery journeyed to Etchikan on Sunday for a long parade spending the afternoon at the river flats working on rifle drill and maneuvers.

Miss Leggat and Miss Spencer, our school teachers left for their homes on Saturday for the long week-end. Miss Leggat went to Drumheller and Miss Spencer to Medicine Hat.

Cpl. W. Snideman, who has been visiting his home in Cluny left for Ottawa on Thursday evening. Bill is with the Postal Corp.

Miss Jean Fairbourn spent the week end at Chancellor visiting friends.

Political Speaker—I'm pleased to see such a dense crowd here tonight. Voice from the audience—Don't be too pleased. We're not all dense.

ANN WATT

Ann Watt's lovely voice has been heard on many CBC Vancouver programmes. She is currently a-he uled in a Recital series on Mondays at 3.00 p.m. (2.00 p.m. MDT) over station CBK Watrous and other stations of the western network.

Women's Army Corps. The recent War news has been good but the requirements would be as large as ever. The events of the Dieppe raid were reviewed. In not one of the hundreds of documents examined is there the slightest suggestion that one man in the Canadian army failed in his duty.

STANDARD

—By G. S.—

The W. I. G. C. held a dance on May 17th, at Standard. Music by Len Davis. Everyone had a good time.

A large attendance gathered at the Danish Lutheran Church on Sunday, May 23rd, to see fifteen boys and girls be confirmed. The girls wore pretty white frocks with a corsage of red carnations and lily of the valley. The

boys had white carnations and lily of the valley.

Miss Dorothy Kimmitt was home from Brooks for the week-end.

Marvin Sparks and Alvin Dankwerth who are both stationed at Camrose, spent a day at home.

Others home this week-end were, Dorothy Foss, Lucille Rasmussen, Joyce Christensen, Alma Nelson, Elaine Nelson, Elma Smith and Joe Foss.

Mr. O. T. Nielson lost about one

hundred bushels of wheat due to fire.

A field day which was held at Standard on May 21st, was very successful. Rockyford High came first. St. Rita's second and Standard third.

FULL LEATHER SOLES BANNED

Cobblers and others making shoe repairs are no longer permitted to use full leather soles according to an announcement made by the administrator of hides and leathers.

**Freedom's Fires Must Be Fed Our COAL!**

CANADIANS must dig and deliver coal that we may sail convoys, power vital war plants, keep our railroads rolling, preserve the nation's health!

The coal mining industry—miners and management alike—have done wonders to provide coal, but they need help. More workers must be provided, or we falter—possibly fail—in this grim hour. Nature has been generous but we must help ourselves. Our mines are rich, but undermanned. By Proclamation, His Excellency the Governor General in Council has declared that labour supply for coal mines ranks as a national emergency. Further, in order to provide manpower for coal, the Governor in Council has issued an Order in Council aimed at swelling the flow of coal from mine to firepot.

This Order is of vital interest to everyone in Canada. Every Canadian should read and study its provisions, to see whether it demands any action on his part:

- 1 EVERY EMPLOYER, REGARDLESS OF HIS INDUSTRY,** must advise his employees of these Regulations, and he must assist in discovering whether any of his employees have had previous experience as coal mine workers.
- 2 EVERY EMPLOYEE, REGARDLESS OF HIS INDUSTRY,** who has had previous experience as a coal mine worker, must report that fact to his employer not later than Tuesday, May 25th, 1943.
- 3 A "COAL MINE WORKER" FOR THESE PURPOSES** is anyone who, since January 1st, 1935, has worked under provincial certificate or license in or around a coal mine, or who, since the same date, has been employed for a total of at least 24 months in the production of coal (except at office work).
- 4 EVERY EMPLOYER, NOT A COAL MINE OPERATOR,** must report in writing to a Selective Service Officer not later than Tuesday, June 1st, 1943, full details on any of his employees who are ex-coal mine workers.
- 5 SELECTIVE SERVICE OFFICERS ARE AUTHORIZED** to require ex-coal mine workers to report for interview and to accept work at a coal mine.
- 6 SELECTIVE SERVICE OFFICERS MAY REQUIRE** any man in any employment, if subject to Mobilization Regulations but rejected for Military Training, and certain others excused from Military Training, to accept employment at a coal mine.
- 7 NO COAL MINE OPERATOR** may terminate the services of any coal mine worker without written permission from a Selective Service Officer.
- 8 NO COAL MINE WORKER** may leave employment at a coal mine without written permission from a Selective Service Officer.
- 9 EVERY EX-COAL MINE WORKER,** returning to the industry under these Regulations, will be paid wages at the established rate for the job at which he is placed; and the Government will pay wages of 40 cents an hour, 8 hours a day and 48 hours a week, to any ex-coal mine worker required to leave his present employment under these provisions, but not placed immediately at coal mining.
- 10 A BOARD ALLOWANCE** of not more than \$7.50 a week may be paid an ex-coal mine worker now returning to a coal mine, if required to live away from the residence of his dependents.
- 11 PRESENT AND FUTURE COAL MINE WORKERS** will be granted postponement from Military Training to February 1st, 1944, by virtue of their occupation; and no coal mine worker will be accepted for voluntary enlistment in the Armed Forces of Canada, prior to February 1st, 1944, except under permit to enlist from a Selective Service Officer.
- 12 NO EMPLOYER IN CANADA, EXCEPT A COAL MINE OPERATOR,** may solicit for employment or hire any ex-coal mine worker.
- 13 REGARDLESS OF ANY DOMINION OR PROVINCIAL LAW,** male persons at least 16 years old may be employed as coal mine workers, and female persons at least 18 years old may be employed as surface coal mine workers.
- 14 WAR EMERGENCY TRAINING CLASSES** will be available for training men as coal mine workers.

Such is the substance of the new regulations. Full details may be had at any Employment and Selective Service Office. If these provisions require action on your part, you are urged in the national interest to act immediately. Severe penalties are provided for non-compliance, but the Government relies on the co-operation of the citizens of Canada to make prosecution unnecessary by prompt action as required. This is a grave emergency. Assist if you can.

IRRIGATION MEETING
FOR RATEPAYERS

IT IS A highly important meeting that will be held Monday, May 31st, in the Memorial Hall, and the ratepayers of Cornish, Serviceberry and Bow Valley Municipalities should attend in large numbers.

This is no time for indifference or delay. The committee is working earnestly for the general welfare of the district.

The time for action is now, to prevent disaster in the coming years. Do not expect your neighbors to represent your interest, attend yourself and show the committee you are backing up their efforts. It is vitally important.

WHO'S A HERO?

Today heroes are in style. When we read about the boys we knew back home, crouching in the foxholes, or taking that last chance in a thousand in a rigged, battered plane, or facing miles of salt water with undaunted determination - everyone of us raises a silent cheer for them.

Heroes don't just 'happen'. They're made. It's the way we've lived, thought and acted for years that makes us what we are in a crisis. Heroism is something inside you. It's the determination to fight for the country - not for personal glory; the willingness to do the hard, dirty, routine jobs as well as the showy ones. It means being honest enough to admit you're wrong sometimes; and having a sense of humour about your tough luck, instead of grouching.

A hero doesn't have to boast because

action speak louder than words. He's working while the others loaf. He learns his job, instead of skimming through the easy way, and tries to learn more instead of griping because he has so much to do. He helps the other fellow who doesn't work or think as quickly as he does.

Above all - a hero has courage - the kind of courage that comes from a faith inside himself that there is some thing to life worth making sacrifices for, something more important than his skin and bones.

People don't always recognize heroes. They have no special jobs or special uniforms. You can be one whether you wield a gun or a pick-axe, fly a Fortress or drive a truck; whether you drop "eggs" over Germany or hot rivets in the shipyards. The band may not come out on parade for you, but you have the satisfaction of knowing that you and thousands of patriots like you are winning this war, and building a world that is clean and honest and square.

Heroes come in any size or style. They may be young or old, short or tall, handsome or just plain, but anyone can be a hero and Canada needs more of them.

Joe—Will your wife hit the ceiling when you come in at this hour?
 Jim—Probably. She's a rotten shot.

600 Royal Navy ships are at sea at any given moment, and at least 2,200 British ships, of which 1,500 belong to the United Kingdom.

HOW ALLIED AIR FORCES "STRAFED" MATRUH

As one of Rommel's most vital ports for the landing of supplies, Mersa Matruh was incessantly attacked by bombers of the Allied Air Forces before its final capture in the course of the 8th Army's victorious advance.

Picture Shows— Damage inflicted by Allied bombing of Mersa Matruh; in the foreground are roofless buildings. In the background are two wrecked merchant vessels beached and derelict.

DEATH OF PREMIER
ABERHART

Today (Wednesday) the flag flies at half mast from the flag pole at the Memorial Hall in respect to the late Premier Aberhart.

Friend and opponent alike learned the news of his sudden demise with a shock.

Of such apparently robust health, one did not suspect any condition which would so suddenly prove fatal.

While The Standard is numbered among those who could not accept his economic theories as workable, we willingly acknowledge his progressive Health Legislation which has placed Alberta as first among the Provinces of the Dominion in beneficial health movements.

His Minimum Wage Act and progressive Educational measures are forward looking movements, the latter placing the Province also in the front place.

Possessed of enormous energy and enthusiasm in proclaiming his beliefs he became known through out the world in a very brief period of time.

By his campaigning he at least aroused many to think whether in agreement or opposed.

He made firm friends and just as strong opponents.

He has now passed leaving to others the carrying on of his plans. Time and the future await what success may result.

WEDDING

MACDONALD - GILLANDERS

Central United Church was the scene of a very pretty wedding on Friday, May 21st, at 7 o'clock, when Edna Pauline, youngest daughter of Mr. and Mrs. A. Gillanders, of Calgary, became the bride of Mr. Allan James MacDonald, only son of Mr. and Mrs. W. MacDonald, of Herrington, Alberta. Rev. Lawson officiated.

The bride who was given in marriage by her father looked lovely in a floor length gown of white sheer with lace insets. She carried a bouquet of red roses.

Miss Charlotte Walker was the bridesmaid. She wore a floor length dress of blue broadened satin and carried a bouquet of pink carnations.

Mr. Glen Laycraft was the best man. Mr. Murray Douglas and Mr. Charlie Robson acted as ushers.

Following the wedding a reception for forty-eight was held at the Empress Grill. The guests were received by Mrs. A. Gillanders and Mrs. W. MacDonald. The tables were tastefully decorated with bouquets of snapdragons; the bride's table being centred with a three-tiered wedding cake.

Mr. J. Walker proposed the toast to the bride.

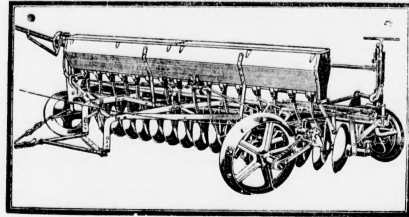

Mr. and Mrs. A. MacDonald spent a short honeymoon at Banff. For travelling the bride chose a two-piece tuxedo suit with white accessories.

The Ladies Aid was held at the home of Mrs. Kennaugh. Lunch was served by Mrs. D. Anderson and Mrs. Kennaugh. The next meeting will be held at the home of Mrs. Jamieson. Mrs. Ella Fritz of Calgary has been visiting at the home of Mr. and Mrs. Glen Field.

Mr. Addison has been confined at home with an attack of pleurisy.

ROCKYFORD

By K. M. G.

All the school children of this part of the division were at Standard on Friday for the Annual Field Day and Track Meet. The teachers well organized and every part of the large school grounds were in use at the same time running off many events. Every child from the youngest pupil to the eldest had many entries and they were well trained by their respective teachers. In the final tally of points Rockyford received the highest score with St. Rita's and Standard following closely. All who took part either as contestants or helping with the organization were thankful for the long week-end caused by the Empire Day holiday which fell on Monday, to relax after their strenuous day.

Mrs. Henke and her father Mr. Fritz Stinn left on Sunday morning's train for Toronto where they will visit with Mrs. Henke's daughter, Leonie, who is in training for a sister near there. They expect to spend some time in the east holidaying before returning to Alberta.

Mr. Charlie Pomroy was quite badly injured on Thursday afternoon while operating the Municipal Road Grader, south of Rockyford. The machine was believed to have run over his body leaving him with a broken leg and ribs besides many lacerations. Help was immediately called and Dr. Giffen was on the scene in a few minutes. The ambulance from Calgary lost no time either in arriving, and Charlie is now

Most of the spring seeding is now completed in the Rockyford district. Some farmers still have a portion of last year's threshing to do yet. The recent dry weather has been a great help in speeding up all farm work.

L. A. C. Edwin Bragg is at present home on extended leave and is with his other helping to put in the crop.

Mrs. Viggo Pederson was taken to the hospital on Sunday May 23rd, for an operation for appendicitis on Monday morning. Latest reports are she is getting on quite well.

birthday. The table center was a large angel food cake prettily decorated with flags. The guests were Mrs. J. Francis, Misses Ruth and Beulah Francis, Miss Mary Tabor, Mrs. Maria Jensen, Mrs. Edna Hobbs and Bobby, Mr. Chris Koenig and Mr. and Mrs. J. M. Wheatley.

Miss Mary Tabor was a Sunday visitor of Mr. and Mrs. S. W. Busch.

Mr. Dwight Yates of Por. Huron, Michigan U. S. A. is an interesting visitor at the home of Tabor and Mrs. G. E. Phillips for a few days. Mr. Yates is down from White Horse where he is installing radio equipment and telephone lines for the New Alcan Highway. Some very interesting stories are being told.

A number of friends visited the home of Mr. and Mrs. C. V. Madsen on Friday evening to congratulate Glenn on his 3rd. birthday.

Mr. Larry Smith drove to Lethbridge to visit a short while with his brother, who is in leave.

Mr. J. C. Paulson was in Calgary for the week-end.

Miss Esther Pederson and Mrs. M. Gladys are visiting with their Mother, Mrs. B. Pederson.

ARDENODE

— By H. M. A. —

Mr. and Mrs. T. Beaver, also Mr. and Mrs. T. Knight of Calgary, were guests at the home of Mrs. H. Sharman Wednesday last.

Miss Elaine Sarsons left Sunday to spend a few weeks holiday in Vernon B. C.

We are sorry to hear of our teacher, Miss Mary Awcock, who is very sick at present in a Calgary Hospital. We sincerely hope for a very speedy recovery.

Mrs. P. McLean, of Nightingale, will teach at Serviceberry during Miss Awcock's absence.

Messrs Davis, Sarsons, Cole and E. Olson all journeyed down to Bassano last Sunday to catch a few fish. They sure brought home the fish. No need now to be worried about meat rationed when we have such fisherman on hand. They all had a very enjoyable day despite the wind and sand changing places.

Mr. and Mrs. A. M. Watson and family spent Sunday visiting in Conrich.

Mrs. Tommy Hicks also Mrs. Bunsie Burggren, of Calgary were guests of Mr. and Mrs. W. A. Freeman Sunday last.

Mr. and Mrs. H. W. Riley of Calgary spent Monday at the Riley farm.

Keep listening. Wedding bells are going to ring very shortly once again.

Mr. and Mrs. Howard Andrews are rejoicing over the birth of a daughter Wednesday last.

Mr. and Mrs. Freddie Hilton also Mrs. H. Hilton of Nightingale were Calgary visitors Tuesday.

CHEADLE

by B. W.

Some people from this district attended the funeral of the late Mr. H. Schultz in Innisfail. Mr. Schultz farmed in the Cheadle district for a number of years.

We regret to say that Mr. Ches Barber was taken to the Holy Cross Hospital with a bad case of ulcers.

Mrs. Emery Jackson had the misfortune of breaking her arm while cranking the pump engine.

Messrs Bernard Fortems and Lucien Fortems, Cliff Iselm and Lee Welshimer went to Lake McGregor to try their luck at fishing.

"Mother, is it true I'm descended from monkeys?"

"I don't know, dear. I've never met your father's people."

There goes your letter to your boy...

IN IT, you put spun bits of chit-chat you know he wants to hear... and in it you also put your heart. You mailed it with a prayer that it might find him safe and well.

Look—it's already on the way... speeding as fast as railway wheels can carry it.

Those singing wheels carry more—much more—than letters. They carry food for your pantry, coal for your furnace. They roll tirelessly that you

may live in comfort. They race across the great stretches of this Dominion with the men and materials of war, so that all of us may live in freedom.

Twenty-four hours a day our railway wheels are rolling, driven by an army of over 150,000 workers serving two major fronts... the home front and the fighting front.

"Keep 'em rolling" is their watchword, whether it's food or fuel, tanks or troops.

Or just your letter to your boy...

MEAT

RATIONING EFFECTIVE THURSDAY, MAY 27TH

After midnight May 26th, it is unlawful for a consumer to buy rationed meats and for anyone to sell rationed meats to a consumer except on surrender of valid ration coupons.

WHAT MEATS ARE RATIONED?

Beef, Veal, Pork, Mutton and Lamb.

WHAT MEATS ARE NOT RATIONED?

Poultry and Fish are not rationed. "Fancy" meats such as Heart, Tongue, Liver, Kidneys, Brains, Sweetbreads, and cooked sausages such as Wieners and Bologna are not rationed. Meat cuts containing 50% or more of bone such as spare-ribs, oxtails, and pigs' feet are not rationed.

HOW MUCH RATIONED MEAT AM I PERMITTED TO BUY?

An average of two pounds per week per person. You get less of meats containing no bone and more of meats containing considerable bone. See the chart of coupon values below.

WHAT COUPONS DO I USE WHEN BUYING MEAT?

The brown Spare "A" coupons from your No. 2 ration book—the book you are now using to buy tea, coffee, sugar, and butter.

HOW OFTEN CAN I BUY MEAT?

Two coupons become good each Thursday. The first pair of No. 1 coupons become good May 27th. Each coupon is good for 34 of one week's ration.

HOW LONG DO COUPONS REMAIN GOOD?

Coupons becoming good before the 15th of a month are good until the end of that month. Coupons becoming good on or after the 15th of a month are good until the end of the following month.

DO I HAVE TO USE THE TWO COUPONS AT THE SAME TIME OR IN THE SAME STORE?

No. You can use a coupon at any time during the period in which it is valid, and in any store you wish.

CAN I BUY ONLY ONE KIND OF RATIONED MEAT WITH A COUPON?

No. You can buy whatever rationed meat is available and as many kinds as you want providing the coupon value is not exceeded.

MEAT RATIONING AS IT AFFECTS FARMERS

Farmers may slaughter their livestock for their own consumption—but must turn in to the Local Ration Board at the end of each month, 1 coupon for each two pounds of their own slaughtered meat consumed on their own premises. Farmers need in no case surrender more than half the number of each month's valid coupons for such home slaughtered meat.

The remaining half of farmers' meat coupons may be used for ordinary retail purchases of meat, on the basis of coupon values as shown on the chart above.

Farmers may supply meat from their own slaughterings to other farmers for consumption on their own farm premises. Local farmer "Beef Rings" are also permitted. Farmers providing meat to other farmers, or "Beef Rings", must collect meat coupons on the basis of 1 coupon for each two pounds of meat, gross weight. Self-addressed and stamped envelopes for mailing in coupons can be secured at your Local Ration Board.

CONSUMER MEAT IN LOCKERS

Before June 30th all consumers (including farmers) who store meat in lockers must declare in writing to the nearest Branch of the Ration Administration, the quantity of rationed meat they have in storage over and above eight pounds per person in the household. Declarations must be accompanied by sufficient coupons from the ration books of the locker holder and his household, to cover the quantity of declared stored meat at the rate of 1 coupon for each two pounds of any meat in the above groups.

The number of coupons to be declared by the locker user need not exceed more than 50% of the total meat coupons in the possession of himself and his household. Locker users may retain for retail purchasing one of each similarly numbered pair of coupons.

HUSSAR

—By M. C. B.—

On Friday evening, Sgt. Major Boles, Mr. G. H. Gooderham, Dr. G. H. Farquharson and Mr. A. H. Noboney motored over from Gleichen and organized a home defense unit. Fifty men and youths volunteered; the largest number to appear at the organization meeting anywhere in this southern district, the officers said. The drill and all the early training will be held in Hussar.

On Friday evening, the committee for the "Comforts for the Men Overseas" held a dance and cleared \$65.00. There was a good crowd from several outside points. The supper committee Mrs. D. Grant, Mrs. T. Lawson, Mrs. V. Le Grandeur and Mrs. T. Burdett, assisted by several others, were kept busy. This will provide for several shipments to the Hussar boys and men.

Church services are being held every evening at the schoolhouse. All are invited to attend.

The next meeting of Hussar Ladies Aid will be held at the home of Mrs. P. Larsen on Wednesday, June 10, from 9 to 11. All ladies welcome.

Rev. Marshall will hold services at noon on Sunday, June 13th. You are cordially invited to attend.

Hans Bucksmidt has opened a grocery store again in Hussar.

S. W. Lawrie's store is getting a fresh coat of paint.

RURAL GLEICHEN

Little Doreen MacMillan had the misfortune to fall from a horse and land on her head.

Donald McArthur and Oliver Corbell made a trip to Olds last week. They took up a load of wire fencing for Alex Buckley and brought back a load of poles and slabs.

Mr. and Mrs. George Yule Jr. are getting settled in the home that he brought from the Sam Desjardine place.

Miss Inga Nerland graduated from Normal school last week and is now at home.

Mr. and Mrs. Carl Lilja and son, Dennis of Calgary are spending a few days with Mr. and Mrs. L. Lilja.

Mrs. N. Gillespie and infant son and Miss Jean McBean of Calgary are visiting in the home of their parents, Mr. and Mrs. David McBean.

Babe McArthur and Kippy James called on the latter's sister at Beynon on Sunday.

NOTICE TO THE MEAT TRADE

Retailers of meat must collect coupons for any rationed meats sold on or after May 27th. They need not turn in coupons to their suppliers for meat purchased up until June 10th. This arrangement is made to enable them to build up stocks. A Special Food Bulletin giving complete details of meat rationing is being mailed to all food stores.

SAPPER G. C. KEER SAID RECOVERING

Sapper Geoffrey Cordy Keer, of Chedoke, who was reported to be dangerously ill with a cardiac condition, in a wire received from military headquarters by his wife, of 1009 14th. Ave. W., last Wednesday, has been taken off the dangerously ill list and is reported to be making "satisfactory progress", according to a wire received Monday afternoon.

Mrs. Keer expressed mystification as to the suddenness of her husband's illness, explaining that she had received a letter from him from overseas, written May 1, in which he was in "perfect health."

Sapper Keer, whose family are well known farmers at Chedoke, has been in the army for nearly three years, having been stationed for many months with headquarters staff at Currie Barracks before joining the Royal Canadian Engineers about a year ago and going overseas at the end of December, 1942.

Slim — Last night I dreamed I was married to the most beautiful girl in the world.
Vi — Oh, dear! Were we happy?

TO CAN RHUBARBS WITHOUT SUGAR—

(Rhubarb canned in water)

Wash before cutting. Do not remove skin. Cut in inch pieces. Pack in freshly washed, sterilized jars. Add just new rubber. Put jar filled with rhubarb in deep pail, and pour cold water on. When the water in the pail comes over the top of the jar five or six inches, place on cover and seal under water.

To serve, do not throw the water in the jar away. Pour into a kettle and boil down until one-half the original amount. Add the rhubarb, cook until soft and add sugar to taste.

Canned Rhubarb (without cooking)—

Sterilize the jars and tops and seal new rubbers. Take freshly gathered rhubarb and cut up as for pies. Partly fill one jar, then, using a thick, smooth stick, press down the rhubarb until the juice begins to flow as some of the pieces are broken. Continue this packing and pressing until the jar is quite full and the juice overflowing; adjust the rubbers and seal at once. Do not attempt to work with more than one jarful at a time. This rhubarb is delicious for use in winter pies. It retains all the flavour of the fresh fruit. One-half gallon jarful of the rhubarb is sufficient for 3 large pies. Store in cool dark place.

Note—Pour hot water over rhubarb let stand 5 minutes, drain off, then can or cook in usual way. If this done less sugar is required.

NIGHTINGALE

By M. H.

The Women's Institute held their regular meeting at the hall last Friday. Current events were given in answer to the roll call. The afternoon was spent in working on the new quilt. The ladies meet on Wednesday next at the home of Mrs. Joel for further work on quilts. Miss Aitken as hostess for the day, served a delicious tea at the close of the meeting.
